

Community Nurse

Providing advice, assessment, interventions and monitoring around the health needs of people with a learning disability.

A Community Nurse can:

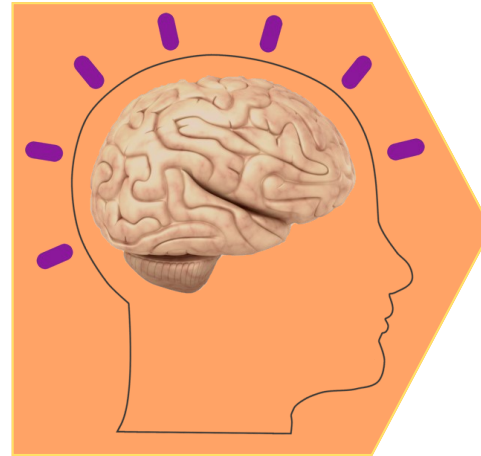

Help you to understand your health appointments and get the best out of them.

Talk through your problems with you and help you achieve your goals.

A Community Nurse can:

Provide epilepsy support and advice.

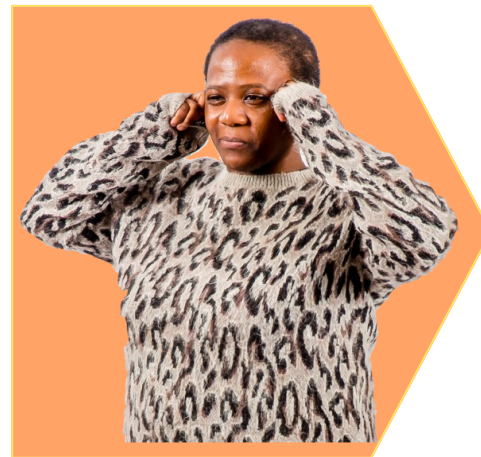

Help you with problems with your memory.

Give you advice and information on staying healthy.

Support you to stay safe.

Support you with your mental health and wellbeing.

Give advice to the people who support you so they can understand you better.
